

DEV GOTH

Ottawa, ON | (343) 558-3217 | devgothi9@gmail.com

PROFESSIONAL SUMMARY

Computer Engineering Technology student with hands-on experience in full-stack web development, IT support, and database management. Proficient in Python, Java, JavaScript, and Next.js with a track record of building and deploying production-grade applications. Skilled in translating complex technical concepts for diverse audiences and collaborating across teams to deliver efficient solutions.

EDUCATION

Algonquin College, Ottawa, ON

Expected Graduation: 2027

Computer Engineering Technology – Computing Science

- Relevant Coursework: Data Structures, Discrete Structures, Database Management Systems (DBMS), Calculus, Software Engineering

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, GoLang, SQL, C, C++

Web Development: Next.js 14 (App Router), React, HTML5, CSS3, Tailwind CSS, REST API, Progressive Web Apps (PWA)

Databases: PostgreSQL, MySQL, Supabase (Auth, Real-Time, Row Level Security)

DevOps & Tools: Docker, Kubernetes, Git, Bitbucket, Vercel, Bash/Shell Scripting, VMware (Linux, CentOS, RedHat)

Frameworks & Libraries: pytest, JUnit, NumPy, Stripe API (Subscriptions, Webhooks), MVC Architecture

Other: NetConf/YANG, SNMP, SEO (Google Search Console, Bing Webmaster Tools, IndexNow), Blender, Agile Methodologies

PROJECTS

SafeSpace | *Full-Stack Anonymous Mental Wellness Platform*

Tech Stack: Next.js 14, Tailwind CSS, Supabase, Stripe, Vercel, PWA

- Designed and deployed a production-ready anonymous platform enabling users to share thoughts and track emotional well-being without identity exposure.
- Engineered an AI-powered journal coach delivering personalized, conversational mental wellness feedback based on user entries.
- Built automated weekly mood reports using AI to analyze emotional patterns and present actionable insights to users.
- Implemented a real-time messaging and friend system using Supabase real-time subscriptions and Row Level Security (RLS) policies for data privacy.
- Integrated Stripe for a freemium subscription model with regional pricing across 8 currencies, including webhook handling and free trial management.
- Configured SEO strategy using Google Search Console, Bing Webmaster Tools, and IndexNow protocol, improving organic discoverability.
- Deployed as a Progressive Web App (PWA) on Vercel with serverless and edge functions for optimized performance.

Invoice Validator | *Automated Invoice Verification Tool*

- Developed an automated invoice validation tool that parses uploaded invoices and detects formatting errors, missing fields, and calculation discrepancies.
- Implemented error detection logic to flag common issues such as mismatched totals, missing tax information, duplicate entries, and invalid date formats.
- Built a user-friendly interface providing detailed error reports with line-by-line feedback, enabling users to quickly resolve issues before submission.

- Reduced manual invoice review time by automating validation checks and generating structured error summaries for end users.

WORK EXPERIENCE

IT Service Desk Student | Muskoka Algonquin Healthcare, ON

January 2025 – December 2025

- Provided first-line technical support to 200+ staff and stakeholders, resolving hardware, software, and network issues via remote assistance tools.
- Documented support tickets and solutions in the IT Service Management (ITSM) system, improving knowledge base coverage for recurring issues.
- Collaborated with cross-functional IT team members to enhance service delivery workflows and reduce average ticket resolution time.
- Troubleshooted Active Directory, VPN connectivity, and printer configuration issues, ensuring minimal downtime for clinical and administrative staff.

Peer Tutor - Calculus & DBMS | Algonquin College, Ottawa, ON

May 2024 – December 2024

- Conducted one-on-one and group tutoring sessions for Calculus and Database Management Systems (DBMS) courses, supporting 15+ students per semester.
- Guided students through relational database design, SQL queries, normalization, and data modeling concepts, contributing to improved exam performance.
- Developed personalized learning plans tailored to individual student needs, enhancing comprehension of foundational and advanced topics.

ACCOMPLISHMENTS & LEADERSHIP

- Co-Head Coordinator for National Level Tech-Xtreme Event, managing event logistics and coordinating participant engagement across multiple technical competitions.
- Served as Event Coordinator in multiple tech fests, encouraging student participation and fostering a collaborative learning community.
- Volunteered to provide foundational education and mentorship to underprivileged children, delivering basic knowledge sessions.
- Completed professional development course on Body Language and non-verbal communication.
